Presentation by Planning & Community Services Director John Signo
Republic Services representative Dawn Harris

The committee received information from Republic that the City is currently meeting and exceeding state requirements without mixed waste processing or transformation. Republic is concerned about language in the current Refuse Agreement that could be interpreted as Republic being in violation of the agreement and presented potential options to cure the issues caused by their facility's inability to operate.

The Committee asked questions and expressed concerns about resident perception, other options for Republic to solve their issues, and the ramifications of potentially modifying the agreement terms.

Ms. Harris stated that Republic would go back to the drawing board and share the Committee's comments with the General Manager and President of Republic Services and return for a future meeting with a more formal proposal of ideas.
